

# USE CASE: USMC SCHOOLS OF INFANTRY INFANTRY MARKSMANSHIP ASSESSMENT

The USMC Schools of Infantry use JMAP to score the Infantry Marksmanship Assessment measuring trainee rifle lethality. Over the last 2 years over 3,000 students have been measured twice, yielding detailed time and accuracy performance used by TECOM to select marksmanship training approaches and set training and performance standards..

## HIGHLIGHTS

- Self-run by cadre
- Almost no training needed
- iOS or Android phones/tablets
- No internet or other connectivity needed
- Records all shot times and hits/scores.
- Detailed reports for each shooter & unit
- Exports all data for leadership analysis
- About 4 hours per 200 trainees
- Adaptable to other tests
- Expanding into line Infantry and MARSOC units.
